

Assignment#6 (Lab)

Evaluation: Week # 12 (22\4\2012), during lab class

ASP.NET – Web Server Controls – Part II

- 1- Create a Web Form with the name: student.aspx. It should contains controls for the following:
 - name – first and last (text box),
 - date of birth (Calendar),
 - gender (radio button),
 - Student class (junior, freshman, senior) (drop down list)
 - username (text box), password (text box – with a password text mode)
 - Submit button that displays all the above information in a label, place each information in a new line (using "
" between each item), and make all the above controls including the buttons Invisible.
- 2- Create a Web Form with the name: terms.aspx. It should contains controls for the following:
 - Term Id (text box)
 - Description (multiline text box)
 - Status open or closed (check box) – check if closed, leave unchecked otherwise

Student Form

Name: First Name Last Name

Date of birth:

April 2012						
Sat	Sun	Mon	Tue	Wed	Thu	Fri
31	1	2	3	4	5	6
7	8	9	10	11	12	13
